OUR PARTNERS

POWERED BY myQ

Nearly 30 years of innovation in door manufacturing

Since 1996, we've been pioneering product development and intelligent engineering to provide roller shutter doors renowned for their reliability and strength.

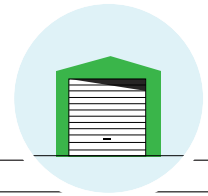

While we have nearly 30 years of experience behind us, what defines us is our ability to always be looking ahead. Our doors and manufacturing processes were designed from the ground up, by understanding what people need and offering the right solutions.

Since the beginning, we've stayed at the forefront of innovation in door and security technology, providing our customers with confidence and peace of mind by using only quality materials and partnering with industry-leading brands.

From our Palmerston North base, we manufacture doors that we distribute and install right throughout the lower North Island and beyond. We know the inconvenience and concern that comes with not having an operational door. The size of our team, the skills of our experienced technicians, and the efficiency of our operations, allow us to be highly responsive to get your door back up and rolling with minimal downtime.

ROLLER DOORS

Install convenience, security and reliability for your home

With a wide range of colour options to choose from, we can create custom doors to suit your budget, environment, functionality and style.

We install leading-brand motors, including motorising existing doors. We offer innovative 'smart' motors using wireless technology, offering additional security and peace of mind through activation notifications and remote operation.

- Made locally with hard-wearing New Zealand galvanised steel
- Sectional, tilt or roller door options available to suit your home and requirements
- Feel confident with our on-going servicing and repairs available when you need us
- Customise the look of your door to complement the exterior of your home with the Colorsteel® range

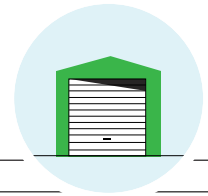

Roller doors are supplied standard with a centre lock mounted waist high. The lock is key operated externally.

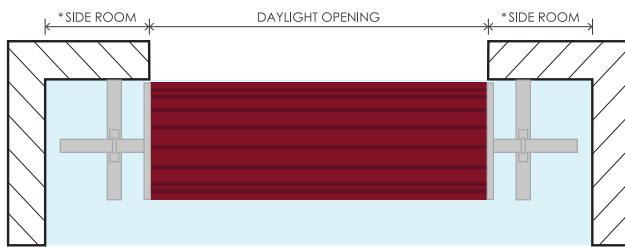

Nylon webbing is applied to both ends of the door curtain for continuous smooth and quiet operation.

ROLLER DOORS

Achieve a seamless exterior aesthetic, while adding the convenience and safety of a durable garage door for your home.

Fitting Guide

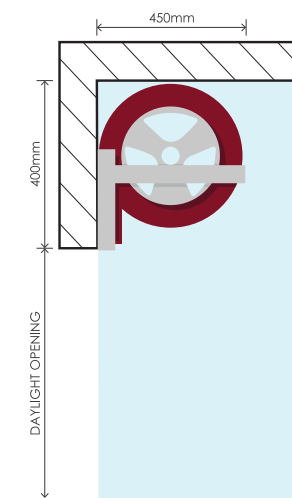

SIDE ROOM

Hand operation:
94mm minimum.

Auto operation:
135mm - 200mm on motor size, dependent on brand of auto opener.

FLOOR REBATE

Allow 65mm into opening behind both door posts.
Rebate depth 25mm.

COLOUR OPTIONS

Roller Doors are available in ZINCALUME® and in a range of COLORSTEEL® colours to suit all aesthetic preferences.

Notes:

Fitting guide details apply to domestic roller doors up to 3200mm wide. Contact manufacturer for details for doors over 3200mm wide

² Additional purchase of Merlin Battery Backup accessory required to enable Battery Backup functionality.

³ Safety IR Beams must be installed to enable the use of Timer-to-Close.

To find out more about the Merlin Gate Opener and Accessory ranges - contact your Stevensons Doors representative.

SECTIONAL DOORS

Sectional doors do not protrude into the driveway during operation / once fully open, maximising the space in front of your garage.

FLAT PANEL

Wide, flat panels create a solid and visually strong garage door that compliments monolithic cladding finishes, making this an excellent garage door choice for modern home designs. The Flat Panel also provides striking contrast against the intricate horizontal lines of weather board and brick.

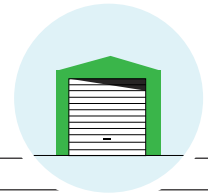

RIBLINE PANEL

Horizontal ribs on each panel produces a visually subtle garage door that complements the horizontal nature of weather boards and bricks, while still contrasting with modern monolithic cladding finishes. Windows can be added to your garage door allowing plenty of light into the garage even with the door closed.

SECTIONAL DOORS

PLATEAU

This residential door panel has a modern minimalist style available in a range of colour choices. Windows are an optional extra to add light into your garage area and makes an attractive choice for any home. Available in smooth finish only.

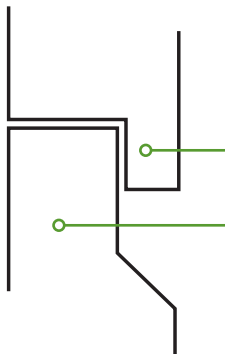

We offer innovative 'smart' motors using wireless technology, adding security and peace of mind through activation notifications and remote operation.

There are two styles of Sectional Door panels available: **RIBLINE** or **FLAT PANEL**. Both styles can have a smooth or woodgrain finish and can be custom made to size to suit your requirements.

Laying parallel with the ceiling when open, sectional doors are often a better fit than roller doors in spaces with lower ceiling heights.

SMOOTH

WOODGRAIN

Sectional doors have a 12mm overlap, meaning joints are concealed and provide superior weather and drought proofing.

This overlapping action also has a unique interlocking effect which reinforces the entire door laterally.

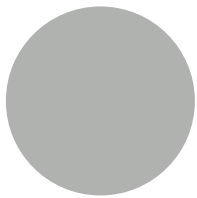

Sectional doors are ideally suited to be automatic, but can be opened manually with ease if required.

Option to fully insulate to help maintain temperature and noise levels.

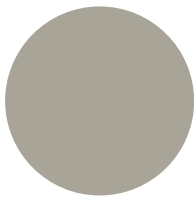

Colour Options

With Colorsteel® we can create custom doors to suit your budget, environment, functionality and style.

SERVICING & REPAIRS

24/7 0800 455 566

Get 24/7 responsive call-out repair service from an experienced technician

While garage doors are made to withstand plenty of regular use, accidents and wear-and-tear issues do happen. Maintain the security of your property, and your own peace of mind, with our prompt repair service.

- We service and repair all leading brands of garage doors and motors.
- We aim to respond to urgent calls within the hour.

Extend the operational lifespan of your door with professional servicing

Maintain the operating performance, safety and reliability of your doors with a preventative maintenance programme. Regular servicing will significantly increase the lifespan of your doors, while also minimising the risk of breakdowns, along with the expense of downtime and repair.

We provide a thorough inspection, check, adjustment and lubrication, all as part of the service package. You'll receive a Service Report advising details of checks and adjustments made by our team, an assessment of the door condition, recommendations and advance warnings of

more costly repairs. Any additional repairs will be discussed and quoted.

- We can develop a regular service schedule based on your individual door types, usage frequency and requirements.
- Your doors are added to our database, helping ensure we maintain stocks of common parts and supplies.
- We service and repair all leading brands of garage doors and motors.

INSTALL

All our roller doors are manufactured in Palmerston North, using quality materials and components, and installed throughout the country by knowledgeable technicians.

REPAIR

Get your door up and rolling again with minimal downtime and inconvenience. We offer prompt emergency repair for your home or business.

SERVICE

Stay on top of regular wear and tear and keep your garage doors operating at their best. We service all makes and styles of electric and manual doors.
